Recentele declarații ale președintelui rus Vladimir Putin obligă la reflecții!

Mobilizarea parțială a armatei Federației Ruse aduce îngrijorare cu privire la un posibil război mondial, cu atât mai mult cu cât, potrivit ministrului rus al apărării, Serghei Soigu, "Rusia se luptă nu doar cu Ucraina, ci cu întregul Occident!"

## What is about?

The President of Romania claims that although no one but Russia wants war, the new evolution of the narrative can be considered a "more or less direct" threat of a nuclear war, not only against Ukraine, but rather against Europe.

# How did this fake-news become popular?

The partial mobilization of the army of the Russian Federation brings concern about a possible world war, especially since, according to the Russian Minister of Defense, Sergei Soigu, "Russia is fighting not only with Ukraine, but with the whole West!"

So the press from Romania take this declarations as serious and shared the information of an potential attack!

# When?

The first news about the possibility of Russia attacking Romania or other NATO member states appeared with the beginning of the invasion of Ukraine. This started on February 24.

Almost all the media from Romania shared this fake-news.

# Target group and the effects

The target group was all the inhabitants of Romania, and the effects produced were of fear, people even make stocks of food and fuel.
